I'm a 4th semester student at Politeknik Praktisi Bandung, focusing on becoming a proficient Front-end Developer located in West Java, Indonesia. As a Front-end Developer I used to code websites from scratch. I love to create simple yet beautiful websites with a great user experience. I build the Front-end of Websites and Web Applications that leads to the success of the overall product.

Current Projects

Ayam Tuwajuh • Food Website

- A food website made using React and Tailwind CSS.

Mamae Laundry • Company Website

- A laundry website made using React, Next.js, Tailwind CSS, and MongoDB.

My Notes • Website

- A note website made using PHP, Laravel, MySQL, and Tailwind CSS.

Curhatin • Website

- A chat application made using React, Next.js, Tailwind CSS, and MongoDB.

Portfolio • Website

- A portfolio website made using React, Next.js, and Tailwind CSS.
