

# Muhammad Iqbal Mudzaki

WEB DEVELOPER | N8N AUTOMATION

---

A 6th-semester student majoring in Information Management at Praktisi Polytechnic of Digital Business Bandung. I am passionate about Information Technology, especially in website development as a Web Developer. I am used to building applications from scratch. Despite still being a student, I can adapt well to professional environments. With my educational background, experience, and skill set, I am confident in contributing effectively to a company.

## Work Experience

- **Automation Developer Internship - PT. Mangprang Persada (September - December 2025)**
  - Developed and managed end-to-end automation workflows using n8n to support various departments (HR, Live Streaming, Operations).
  - Built HR automation systems, including: monthly overtime recaps, employee lateness reports, and "Achieve Month" tracking (employees with no absences).
  - Designed an automated GMV (Daily, Weekly, Monthly) reporting system for the Live Host team.
  - Implemented real-time data integration from Jubelio to an internal database and created an automated daily shipping receipt tracking system.
- **Web Developer Internship - PT. Prima Persada Multimedia (May - July 2025)**
  - Responsible for slicing UI/UX designs (Figma) into clean and responsive ReactJS / Wordpress code.
  - Developed interactive and reusable user interface (UI) components for the company's website.
  - Collaborated with the backend team to ensure smooth API integration.
- **Web Developer Internship - PT Multi Areal Planning Indonesia (January - March 2025)**
  - Developed user interfaces using Tailwind CSS to ensure responsive and modern designs.
  - Performed high-accuracy UI slicing from design to code.
  - Integrated provided APIs using Laravel 11.
  - Worked closely with the UI/UX and backend teams to create an optimal user experience.

## Project

- **Prakpoll - October 2024**

E-Voting Website

Link Project : <https://prakpoll.digital/>

Features :

- Responsive Design .
- Real-Time Voting Results.
- Secure Voting Access for Students.
- Admin Panel for Voting Management.

- **Sudden Quiz - September 2024**

Random Quiz Website

Link Project : <https://suddenquiz.vercel.app/>

Features :

- Responsive Design.
- User Authentication via Fakestore API.
- Countdown Timer with Auto-Submit.
- Randomized Questions via OpenDB API.

- **Ayam Tuwajuh - July 2024**

E-Commerce Website

Link Project : <https://ayam-tuwajuh.vercel.app/>

Features :

- Responsive Design.
- User Authentication.
- Shopping Cart Feature.
- Admin Panel for Order & Inventory Management.

- **Curhatin - Juny 2024**

Website Chat Application

Link Project : <https://curhatin.fun/>

Features :

- Responsive Design.
- User Registration, Login & Email Verification.
